

BOOTH SELECTION PROCESS

Platinum booths were selected first, then gold booths. Once priority platinum and gold booths were selected, the process of general booth assignments occurred. Platinum and gold booths contracted after February 15 were allowed to select their booth location from the remaining stock on hand.

PLEASE NOTE:

- Booth fees must be paid in full prior to booth selection/assignment.
- It is the responsibility of the exhibiting company to indicate company classification during the registration process as the industry classification is what ACMA used for booth assignments to ensure that competitors were not located within close proximity of each other.
- ACMA reserves the right to assign, relocate or reassign exhibit booths at any time for the overall benefit of the event.
